You may appeal any policy, action or decision which has a significant adverse affect upon you. With the exception of Serious CDC 115s, classification committee actions, and classification and staff representative decisions, you must first informally seek relief through discussion with the appropriate staff member, who will sign your form and state what action was taken. If you are not then satisfied, you may send your appeal with all the supporting documents and not more than one additional page of comments to the Appeals Coordinator within 15 days of the action taken. No reprisals will be taken for using the appeals procedure responsibly.

## Memorandum

Date : August 20, 2007

To : Inmate ROBINSON, N. CDC# J71342

Subject : **SECOND LEVEL APPEAL RESPONSE**  
**LOG NO: CAL-~~8~~07-01247**

**ISSUE:** The appellant is submitting this appeal relative to MEDICAL.

It is the appellant's position that he suffers from severe pain to his right knee and in his major joints. The appellant claims he was seen by an Ortho Specialist in May 2007, and was prescribed Tramadol for his pain; however, appellant claims he never received his medication.

The appellant is requesting to know when the medication was ordered and when he was suppose to receive it. The appellant further request that he receive the medication on time and that medical staff be counseled to prevent further incidents from occurring and that he be compensated \$5000.00 for pain and suffering.

**INTERVIEWED BY:** J.M. SALGADO, RN, on July 20, 2007.

**REGULATIONS:** The rules governing this issue are:

California Code of Regulations, Title 15, Article (CCR) 3350. **Provision of Medical Care and Definitions**

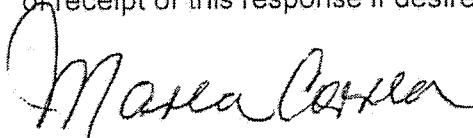

**DISCUSSION:** In consideration of this appeal, a review of the appeal and its attachments was conducted. The CCR and all applicable laws and procedures were also considered along with the contents of the appellant's Unit Health Record (UHR) and a personal interview.

The appellant was advised in the First Level Response that the medication (Tramadol) was ordered on May 23, 2007, but was never noted. The revised CDCR formulary of May 2007, had removed Tramadol. Delay occurred due to clarification of usage from Sacramento. After discussion with the Pharmacy staff in regard to the appellant's concern, Pharmacy staff stated that the Tramadol was ordered for the appellant on May 23, 2007 and again on August 2, 2007. The appellant's concern that he did not receive his medication in a timely manner was addressed with the Facility B Medical staff. Medical staff was advised of the importance of medication being delivered to the Inmate/Patient's in a timely manner or as soon as a discrepancy is determined. The appellant was seen on August 1, 2007, by his Primary Care Provider (PCP), S. Young, and the medication was ordered again for ninety days. The appellant is currently receiving his medication. Also a referral was submitted to the Medical Authorization Review Committee for the appellant to be seen by an Orthopedist, which is currently pending approval. The appellant is advised that in the future when medication needs to be refilled, he should notify medical staff a week prior to medication running out. If medication is not received, appellant is advised to notify medical staff as soon as possible. The appeal process does not allow for monetary compensation at any level.

Second Level Appeal Response  
Appeal Log # CAL-S-07-01247  
Page 2

**DECISION:** The appeal is **Partially Granted** at the Second Formal Level in that the appellant is receiving the Tramadol ordered by the specialist and his PCP. The appellant is also advised that the referral to see the Orthopedist is currently being reviewed by the MAR Committee and pending approval.

The appellant is advised that his issue may be submitted for a Director's Level Review within 15 days of receipt of this response if desired.

IAB Case No.: 0708660

Local Log No.: CAL-07-01247

This matter was reviewed on behalf of the Director of the California Department of Corrections and Rehabilitation (CDCR) by Appeals Examiner V. O'Shaughnessy. All submitted documentation and supporting arguments of the parties have been considered.

**I APPELLANT'S ARGUMENT:** It is the appellant's position that he suffers from severe pain to his right knee and in his major joints. The appellant claims he was seen by an orthopedic specialist in May 2007, and was prescribed Tramadol for his pain. The appellant claims he never received his Tramadol. The appellant is requesting to know when the Tramadol was ordered and when he was supposed to receive it. The appellant further requests that he receive the Tramadol on time and that medical staff be counseled to prevent further incidents from occurring. He also requests a compensation of \$5,000 for his pain and suffering.

**II SECOND LEVEL'S DECISION:** The reviewer found that the appellant was advised in the First Level of Review that Tramadol was ordered on May 23, 2007, but was never noted. The revised CDCR formulary of May 2007, had removed Tramadol. Delay occurred due to clarification of usage from Sacramento. Pharmacy staff stated that the Tramadol was ordered for the appellant on May 23, 2007 and again on August 2, 2007. The appellant's concern that he did not receive his medication in a timely manner was addressed with the Facility "B" medical staff. The appellant was seen on August 1, 2007 by his primary care physician and the medication was reordered for ninety days. The appellant is currently receiving his medication. Also, a referral was submitted to the Medical Authorization Review Committee for the appellant to be seen by an orthopedist, which is currently pending approval. The appellant is advised that in the future when medication needs to be refilled, he should notify the medical staff a week prior to the expiration date. If medication is not received, appellant is advised to notify medical staff as soon as possible. The appeal process does not allow for monetary compensation at any level. The appeal was granted in part at the Second Level of Review (SLR) on August 20, 2007.

**III DIRECTOR'S LEVEL DECISION:** Appeal is denied.

**A. FINDINGS:** The Director's Level of Review reviewed the appellant's appeal complaint, the SLR response and contacted the institution medical staff for further information. On November 1, 2007, E. Banaga-Bugarin, Medical Appeals Coordinator, reported that the appellant is currently receiving Tramadol and Tylenol. He was evaluated by an orthopedist on October 10, 2007; a follow-up was requested once the magnetic resonance imaging (MRI) study was completed. On October 29, 2007, the appellant had the MRI study. A follow-up with the orthopedist will be scheduled. All of the appellant's issues on appeal have been addressed by the institution. Monetary compensation is beyond the scope of the appeals process. No modification to the SLR is warranted.

The appellant has added new issues and requests to his appeal. The additional requested action is not addressed herein as it is not appropriate to expand the appeal beyond the initial problem and the initially requested action (CDC Form 602, Inmate/Parolee Appeal Form, Sections A and B).

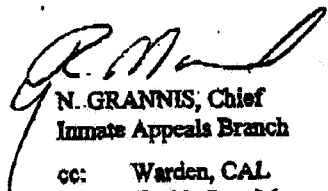

**B. BASIS FOR THE DECISION:**  
California Code of Regulations, Title 15, Section: 3350, 3354

C. ORDER: No changes or modifications are required by the Institution.

This decision exhausts the administrative remedy available to the appellant within CDCR. If dissatisfied, the appellant may forward this issue to the California Victims Compensation and Government Claims Board, (formerly known as the State Board of Control), Government Claims Unit, P.O. Box 3035, Sacramento, CA 95812-3035, for further review.
